OK
kunals-mbp:web kunalmalhotra$
```

UPLOAD IMAGE TO IBM CONTAINER REGISTRY:

The screenshot displays the IBM Container Registry interface. On the left, a sidebar contains navigation links: 'Quick start', 'Namespaces' (with a count of 1), 'Repositories' (with a count of 1 and highlighted in blue), 'Images' (with a count of 1), 'Trash' (with a count of 0), and 'Settings'. The main content area is titled 'Repositories'. At the top of this area, there is a 'Location' dropdown menu set to 'Global'. Below this is a search bar with a magnifying glass icon and the text 'Search'. To the right of the search bar are icons for refresh and settings, followed by a blue 'Create' button with a plus sign. A table lists the repositories with columns: 'Name', 'Image count', 'Namespace', and 'Last updated'. One repository is listed: 'ibmproj' with an image count of 1, namespace 'myproj', and last updated '4 days ago'. The table has a dropdown arrow to the left of the repository name. At the bottom of the table, there is a pagination bar showing 'Items per page: 25', '1-1 of 1 item', and navigation controls for '1 of 1 page'.

| Name | Image count | Namespace | Last updated |
|----------------------------------|-------------|-----------|--------------|
| ibmproj icr.io/myproj/ibmproj | 1 | myproj | 4 days ago |

Items per page: 25 1-1 of 1 item 1 of 1 page
